

MILLION DOLLARS FOR WATER FRONT

Supposed Alliance Between the Seaboard and Rock Island.

SALVATION ARMY ENJOINED

Goodrich Hatton Spoken of as Next Mayor of Portsmouth.

(Special to The Times-Dispatch.)
NORFOLK, VA., May 12.—It developed to-day that a million dollars' worth of water front property has been acquired in Portsmouth by persons connected with the Seaboard Air Line road. The presumption is that the road has an alliance with the Rock Island and other Western railways to furnish Atlantic terminals for exports.

SALVATION ARMY ENJOINED

Judge W. B. Martin, of the Court of Law and Chancery, issued to-day a permanent injunction against the Salvation Army. This is the second appearance of A. B. Cralle, a resident of East Main Street, in the same court to obtain relief from the noles of the Salvation Army, recently encamped at No. 446 East Main Street, in the vicinity of the residence. In this case the injunction prohibits Captain Heather and his band from beating drums, playing tambourines, shouting, stamping and making other religious demonstrations which will disturb the rest and peace of the neighborhood and the family and private life of the neighborhood. If this injunction be not observed, Captain Heather and his associates will be in contempt.

Thomas Beard, colored, was arraigned in the Corporation Court to-day on an indictment for the murder of James Griffin, colored, and discharged. Griffin's ante-mortem statement exonerated Beard and there was no evidence of malice, as the men were proved to be friends.

United States District Attorney L. L. Lewis, of Richmond, is the chief counsel for the defense in the case of the will of Mrs. John H. Core, deceased, involving property to the value of \$100,000. The case was heard to-day in the Court of Law and Chancery by Judge W. B. Martin and taken under consideration. The plaintiffs, Tarrant and others, relatives of Mrs. Core, contend the will by which the wife gave her property to her husband. They contend that a wife at that time, April, 1890, had no legal right to make a will, and that the property in question was not legally hers at the time the will was executed. They contend that she could not give away what she did not have, and that as the property in question came from the Tarrants, it is not now rightfully or legally in the possession of her husband. They contend that it should be distributed among them as the heirs of the property to which the will does not give the husband a valid title. John H. Core is rich exclusive of the property inherited by his wife.

MAJOR OF PORTSMOUTH.
Goodrich Hatton, a native of Portsmouth and a member of the recent Virginia Constitutional Convention, is favorably mentioned as the successor of Mayor Baird for the unexpired term of the mayorality of Portsmouth. The selection is to be made by the City Councils, which will meet to-morrow night. Mr. Hatton has stated that he would accept the position, provided the office of Mayor be separated from the office of police justice. Mr. Hatton is a native of Portsmouth, and a prominent business man in Norfolk, is mentioned also for the place.

EMBARGO RAISED.

Steamer Elm City Launched and Plying Her Route.
(Special to The Times-Dispatch.)
The steamer Elm City, which has been the cause of so much interest and excitement throughout this section, is now all right, and is pursuing the even tenor of her way. She was put on the marine way of West Point for repairs during a high wind she was blown out of position and hung. Every effort to launch her was fruitless until Wednesday afternoon, when a large crowd witnessed her slide into the river.

A large quantity of freight has accumulated along the river landings, and in the depot here, and, as has been stated before, an effort was made to disgorge the accumulation of freight by chartering the schooner J. L. Mulford, to take the freight up the Mataponi river, and with freight upon her, and in her hold, presumably having caught from lime, it was found necessary to scuttle the boat to save her. The loss to freight was estimated at \$1,000. Great inconvenience was caused to farmers and merchants by this delay, and great loss and annoyance to the owners of the Elm City. The Donaldson-Shultz Company, manufacturers of phillips, that is represented here by Mr. Jeter Woodward, and is surrounded by so many in the city and surrounding counties, has about closed negotiations for valuable property in South Baltimore, on which they propose to erect a large building as headquarters, instead of a distributing point, as heretofore.

NEW ELECTRIC LINE.

Route Through Augusta. Into Rockbridge County.
(Special to The Times-Dispatch.)
STAUNTON, VA., May 12.—A charter has been granted to the Virginia Valley Traction Company with its principal office here. Mr. H. B. Spauldine is president, and Mr. J. C. McGary, secretary. The capital stock is \$25,000. The object of the company is to operate a trolley line from Staunton to Rockbridge County, and to connect it with the Staunton street car system. The company is a competitor for the purchase of the Staunton street car system, and they at once set about to get a charter for their county line, which it is said will run from Staunton to Rockbridge County, by way of Middlebrook. It is thought that this line will be run in conjunction with the Staunton plant, which is expected to start running regularly during the first of June.

A large force of hands are now at work getting the Staunton line in shape. There is also a movement on foot looking for a location of a trolley line from Staunton to Mt. Solon, in Augusta.

ITCHING SCALP HUMOR

Lady Suffered Tortures Until Cured by Cuticura.

SCRATCHED DAY AND NIGHT

"My scalp was covered with little pimples and I suffered tortures from the itching. I was scratching all day and night and I could get no rest. I washed my head with hot water and Cuticura Soap and then applied the Cuticura Ointment as a dressing. One box of the ointment and one cake of Cuticura Soap cured me. Now my head is entirely clear and my hair is growing splendidly. I have used Cuticura Soap ever since and shall never be without it." (Signed) A. C. Smith, 309 Grand St., Jersey City, N. J.)

HUNG IN SIX WEEKS IN PULASKI COUNTY

Condemned Man Enters Into Plot to Kill the Jailor.

(Special to The Times-Dispatch.)
PULASKI, VA., May 12.—Cloyd Hale, the negro murderer of John Hart, an umbrella mender, about six weeks ago, was hung here this morning. He died in fourteen minutes, from strangulation. The negro, when he came out of the jail, on his way to the scaffold, told everybody in sight good-bye, and told them not to do as he had done, and that he was going right to heaven. Two colored ministers, Wright and Mitchell, went to the scaffold with him. Hale, who made a good talk, which, it followed, would be beneficial to all who heard it.

There are three negroes in jail here sentenced to terms in the penitentiary for breaking into railway cars, and these three, together with Hale, a few days ago made up the plot to get out of jail. The three negroes were to break the lock on Hale's cell and when he came to the scaffold, the jailor, came in, Hale was to kill him with a bed slat and the other three were to assault the colored man who cooked for the jail, when he and Mr. Carper came in with the meals for the prisoners. The plot might have been attempted but for a colored boy in the jail, who overheard the men talking and told Mr. Carper about it. Upon investigating Hale Carper about it, and yet in the face of this attempted crime, while in the shadow of the gallows, Hale said he was saved and going to a better land.

It is expected that the improvements will be completed by July 1st, and the supply for domestic and other purposes will be largely increased and fire protection greatly enhanced. A beautiful monument to General Alexander Hays, of Petersburg, Va., has been put in place on the Wilderness battlefield in Spotsylvania county, near this city, and will be unveiled with appropriate ceremonies on June 3d. Both Federal and Confederate soldiers will take part in the proceedings at the unveiling, and the occasion will be of an interesting character.

The celebrated case of Martin's administration against the Richmond, Fredericksburg and Potomac Railroad, for damages for the killing of Martin's wife and two daughters by a train, which was set for trial in Stafford Circuit Court May 11th, has been postponed to the September term of court, owing to the absence of important witnesses.

Will Not Move Offices From Portsmouth to Norfolk.

NO COAL TERMINALS THERE

Indications Are That Seaboard Will Haul Coal to Wilmington.

(By Associated Press.)
NORFOLK, VA., May 10.—James M. Barr, president of the Seaboard Air Line, made the following statement to the Associated Press to-night: "There is not a word of truth in the report that the offices of the Seaboard Air Line will be moved from Portsmouth. No office will be occupied by the road in Norfolk."

Regarding the report that a large coal station will be established at Southport, N. C., some of it is correct and some parts of it are incorrect. The Seaboard Air Line has not purchased in southwest Virginia and northern Tennessee, but it was bought by Messrs. Ryan, Blair, Dennis, Green and Coolidge, who are, however, interested in Seaboard."

This announcement by Mr. Barr means that the Seaboard will soon enter into active competition with the Norfolk and Western and Chesapeake and Ohio systems as a carrier. Its coal terminals will not be here because the property of the line on the waterfront is too far from the outer harbor to compete with Lambert's Point shipments by the Norfolk and Western, or Newport News shipments by the Chesapeake and Ohio, and from the fact the road would be compelled to haul the coal too great a distance to allow competition.

It is pointed out that to bring the coal to Portsmouth or Norfolk would require an additional hauling of 100 miles over the route to Wilmington and Southport and it is declared that all idea of building great coal terminals in Portsmouth or in this city have for this reason alone been given up.

The question of there being but twenty-one feet of water at Wilmington and Southport, while there is twenty-eight feet of water here is a matter which, it is declared, will take care of itself in the future. A branch road from the new coal fields through to Johnson City, Tenn., will be completed within a year and the Seaboard's coal operations will be over this branch, coming from Johnson City to connect with the Seaboard Air Line's main track at Hamlet, N. C., whence there is at present a line to Wilmington and Southport.

KEEP THE BALANCE UP.
It has been truthfully said that any disturbance of the even balance of health causes serious trouble. Nobody can be too careful to keep the balance up. When people begin to lose appetite, or to get tired easily, the least imprudence brings on sickness, weakness or debility. The system needs a tonic to bring it back to its normal state. It is the best tonic of which we have any knowledge. It is Hood's Sarsaparilla. What this medicine has done in keeping healthy people of health, gives it the same distinction as a preventive that it enjoys as a cure. Its early use has illustrated the wisdom of the old saying that a stitch in time saves nine. Take Hood's for appetite, strength and endurance.

(Special to The Times-Dispatch.)
BALTIMORE, N. C., May 12.—During a severe thunder storm that passed over this city last evening, lightning struck the State Fair building at the fair ground, and displaced three thousand shingles. The heavy downpour of rain was all that saved the buildings from destruction by fire.

THE GRUBBS TRIAL.
The Prosecution Weaving Strong Case Around Prisoner.
(Special to The Times-Dispatch.)
SALISBURY, N. C., May 12.—The examination of witnesses in the Grubbs' murder trial was begun as soon as Rowan Superior Court convened this morning. So far the State has made no rest, but by great care is weaving a strong chain of evidence about the prisoner.

The first witness examined for the prosecution was Rev. J. H. Bennett, who resides at Piney Church, Davidson county, which was the scene of the killing of Obe Davis Sunday morning, October 18th.

S. B. Crump was the next witness called. He testified that he was walking with Davis towards the church when Grubbs stepped up and fired the three deadly shots. Davis was retreating when the two last shots were fired.

D. L. Fritts and T. W. Bartley, of Davidson county, were next introduced by the State, followed by John Williams, of Davidson county, all gave about the same account of the killing.

I. L. Clement, of Salisbury, is conducting the examination for the prosecution and C. B. Watson, of Winston-Salem, is leading counsel for the defense.

The trial is tedious, but holds the attention of large numbers of visitors.
